THE NEXT GENERATION GLASSHOUSES

BOTANICAL GREENHOUSES  
SPECIAL PROJECTS  
DESIGN & CONSULTANCY

# EdenParks the *next* generation

We specialise in building glasshouses that exceed your expectations.

Offering visitors a **unique experience**.

Whether it is the World Horti Center, a botanical glasshouse for the Emir of Kuwait or a beautiful designed meeting centre with a Victorian roof...

At EdenParks we translate your wishes into an exceptional building that people enjoy and will keep coming back to. From design to construction and installations.

**Sustainable, innovative and inspiring.**

At EdenParks you will get **'the next generation glasshouses'**.

YOU WILL RECEIVE A TAILOR-MADE ANSWER IN TERMS OF AESTHETICS, TECHNOLOGY AND CONCEPT. WE ARE PROUD TO BE AT YOUR SERVICE.

# tion glasshouses

A large, modern glasshouse with a curved, arched roof and a white facade. The interior is brightly lit, showing plants and furniture. The glasshouse is reflected in a pool of water in the foreground. The sky is a deep blue with some clouds.

Would you like to offer your visitors an exceptional experience?

At EdenParks we are proud to be at your service with design, consultancy, construction or turn-key solutions for glasshouses and their interior.

You can count on our insight, inspiration and many decades of experience.

Glasshouses are increasingly popular and are now being used for a wide range of purposes. Understandably, because inside a glasshouse, the very special experience of being outside and yet inside is wonderful regardless of the weather conditions. It's the light, the sound and the climate that please the senses.

*Inspiring and innovative high-end projects*

## EDENPARKS AND SMIEMANS PROJECTEN

EdenParks is a special division of Smiemans Projecten. With the second generation of Smiemans in charge and an increasing number of ambitious national and international projects, we felt the need to communicate our products and services more clearly to our current and future clients. We have so much know-how. The well-known and reliable brand name Smiemans Projecten will continue to be used in commercial garden centres.

## SUSTAINABILITY

At EdenParks, building a sustainable business is standard practice: we carefully consider the use of resources, energy and ecological impact. Our glasshouses have a minimal carbon footprints. So besides the high quality level in their construction and engineering and affordability, EdenParks glasshouses are green and future-proof buildings.

WITH MORE THAN 45 YEARS  
OF KNOWLEDGE WE BUILD  
GLASSHOUSES THAT EXCEED  
YOUR EXPECTATIONS!

“

For many decades now we have been turning the challenging wishes and requirements of our clients into practical and efficient solutions. We work as a team with our clients to gain new insights and explore different options. We have been cooperating with steady partners, both nationally and internationally, for a long time. Whether it is a botanic greenhouse with four different climate zones in the desert or an international meeting point for horticulture: they are all inspiring projects!

”

Jeroen Smiemans, director EdenParks

# BOTANICAL GREENHOUSES

*The starting point is a list of wishes and requirements. The end result is a tailor-made botanic glasshouse with the right climate and a range of plants and flowers, where every detail counts!*

EdenParks designs and builds botanic glasshouses for research and leisure purposes. Clients like RHS Garden Wisley and the Goethe Institute in Frankfurt selected us because of our:

- excellent construction and engineering
- down-to-earth approach
- stylish and exclusive designs
- project management, consultancy and excellent service
- soft and hard landscaping

# SPECIAL PROJECTS

*Glasshouses that are unique and different, for profit or non-profit purposes: exhibition pavilions, retail or the hospitality industry... venues that attract people and make people come back to. Let the building enhance the value of your organization, brand, project or product; distinctly and sustainably.*

We design and build affordable glasshouses that attract large crowds of visitors and consumers. The special experience of being outside and yet inside and the many design and climate options make glasshouses ideal for many profit and non-profit purposes!

# DESIGN & CONSULTANCY

*Do you need advice about your project in order to make the most of your investment? How do you make sure your glasshouse is future proof? EdenParks understands that it is all about: price, quality and service.*

You can always rely on our specialists for advice and detailed proposals. From sketches for the design to technical drawings for the constructions, from optimal routing to more energy efficiency. The down-to-earth and pragmatic approach of our specialists is fully aimed at finding the best possible solutions for our clients. We aim to exceed your expectations.
